FACULTY OF SCIENCE
REGISTRATION INFORMATION
2022

UNDERGRADUATE <u>RETURNING STUDENTS</u> REGISTRATION

This applies to all students who have already been registered for a BSc at UCT prior to 2022 and who are <u>academically eligible to continue in 2022</u> or have been granted a concession to return.

Students who do <u>not meet the readmission requirements</u> for their programme in 2021 will be informed on 22 December 2021 of the need to appeal for readmission to the RAC. **All appeals for readmission must be submitted <u>by 3 January 2022</u>**.

Students will be required to register <u>remotely</u> using the Peoplesoft system, well in advance of the return to campus. <u>A detailed notification will be sent in January of how to register using PeopleSoft. It is therefore important to continue to check your UCT email account.</u>

Registration dates

The final results for the 2021 academic year will be released on system on 22 December 2021. Results of supplementary, deferred and summer term exams will be released on 28 January 2022.

➢ All returning students who have <u>no outstanding/missing results</u> by 20 January 2022 will be required to register remotely over the period **20 to 28 January 2022.**

➢ Students with any outstanding results in January (those writing supplementary, deferred and summer term exams) will be required to register from **31 January to 3 February 2022.**

For international students, clearance (i.e. visa, medical aid and fee checks) will also be done remotely.

Students with outstanding fees

Students will <u>NOT</u> be allowed to register until their fee account has been settled. Please note that South African students can register before making the initial payment. All international students must make payment before registration. For further fee related information, refer to http://www.students.uct.ac.za/sites/default/files/image_tool/images/434/fees_funding/fees/downloads/2022_fees_payment_dates.pdf

Lectures start on Monday 14 February 2022.
